Personalized silicone label

You can customize bags by changing the following elements available for the desired model: color of materials, straps, belts, zips, stitches, piping, reinforcement on the strap i.e., on the belt for carrying, and the lining too. The graphical display explains in detail how you can customize your bag for you, and those changes don't affect the price of the model.

Note: Just one article is shown on this page, and the principle of its personalization, which is applicable to all other bags according to the specification of each product (conference bags, backpacks, cases, sport bags, laptop bags, shopping bags, attache maps). Items whose modification affect the price can be: changing the dimensions of an article (whole or parts) and changing of additional elements such as lining dimension, straps, number of zips, compartments, pockets, stitches, edgings and bag thickness(reinforcement).

The background of the page is a large, vibrant red ink splash that flows from the top right towards the bottom left, creating a sense of dynamic movement. The ink has various shades of red and pink, with some areas appearing more saturated than others. In the top left corner, there is a solid pink circle. In the bottom left corner, there is a large pink circle containing the number 3, surrounded by several smaller pink circles of varying sizes. In the middle left area, there are several pink triangular shapes of different sizes, some pointing towards the center and others away from it.

SPORTS AND RECREATION

3
